**MANHEIM'S TRANSPORT SOLUTION SELECTED BY PROFESSIONAL
AUTOMOTIVE RELOCATION SERVICE (PARS) TO PROVIDE
TRANSPORTATION AND STORAGE**

ATLANTA – Manheim's Transport Solution was chosen by Professional Automotive Relocation Service, Inc., (PARS) to provide customized solutions, including transportation, storage, security, and detailing at more than 65 locations throughout the United States.

"This is a win-win opportunity for PARS, Manheim and our customers," said Jim Christiano, PARS founder. "Working with Manheim, we will be able to cut transportation and storage costs as well as provide our customers with a host of additional services. In addition to our partnership with Manheim, PARS has just opened up offices in Chicago, Ill.; Columbus, Ohio; and Dallas, Texas."

Manheim Transport Solution will transport PARS fleet vehicles to one of its many highly secured storage locations across the country. When the vehicle is ready to be released from storage, Manheim Transport Solution will provide a basic condition report, which will recommend the level of reconditioning needed for the vehicle. Manheim Transport Solution coordinates with Manheim and non-Manheim operating facilities nationwide to provide full-service detail work, giving PARS customers the same quality of service, price, and convenience from coast to coast.

"The goal of Manheim Transport Solution is to provide an enhanced customer experience to PARS by offering a one-stop vehicle solution that includes improved technology, processes and services," said Brett Franklin, Manheim Transport Solution general manager. "We look forward to building our relationship with PARS and expanding the number of storage locations and services we offer in the future."

PARS is a woman-owned business established in 1998 that provides automotive relocation services for commercial fleets, fleet management companies, and individuals throughout the United States and Canada. PARS' automated Web site allows customers to obtain real-time price quotes, place orders and track the status of orders online 24/7. In addition to storage and vehicle reconditioning, PARS provides its customers with DMV and DOT service. For more information, visit www.parsinc.com.

About Manheim

Manheim is the world's leading provider of automotive remarketing services. Through its wholesale auctions and array of technology products, Manheim impacts every stage of a used vehicle's life cycle, helping commercial sellers and automobile dealers realize the full value of their vehicles.

The company's auction services include reconditioning, certification, inspections, dealer financing, transport, title management and marshaling, among others. Manheim is also the leader in remarketing technology, using its online tools to connect buyers and sellers around the globe to the world's largest, most comprehensive wholesale marketplace. In 2006, Manheim handled nearly 10 million used vehicles – and sold more than 5 million – representing more than \$58 billion in value.

Manheim's subsidiary companies provide value-added remarketing products and services, including transportation management (Transport Solution), paintless dent removal (Dent Wizard), Auto Body Repair, and salvage vehicle remarketing (Total Resource Auctions).

A wholly owned subsidiary of Cox Enterprises, Atlanta-based Manheim is a global organization with 32,000 employees at its 145 U.S. and international locations. For more information, visit www.manheim.com.

About Transport Solution
